

29 April 2025

The Company of Biologists appoint New Knowledge Information Co., Ltd., as sole agent in Thailand

We are delighted to announce that we have signed an agreement with New Knowledge Information Co., Ltd., to represent us as sole agent in Thailand.

New Knowledge Information Co., Ltd., has many years of experience of working with librarians across a range of settings as well as extensive knowledge of the education market. This new partnership provides us with opportunities to increase our visibility and to expand our subscriptions and Read & Publish initiative to benefit institutions and researchers throughout Thailand.

Patcharasiri Srirakul, Founder and CEO, New Knowledge Information Co., Ltd., says:

“New Knowledge Information Co., Ltd., is pleased to partner with The Company of Biologists to promote transformative agreements and high-quality journals in Thailand. This collaboration aims to support researchers and universities in Thailand by enabling greater access to publish and share their works openly. Together, we are committed to advancing open access publishing, increasing the global visibility of Thai research, and fostering a more sustainable and accessible research environment in the biological sciences.”

Sarah Logan, Regional Sales Manager at The Company of Biologists, says:

“We are excited to now begin working with New Knowledge Information in Thailand, which will provide The Company of Biologists with greater visibility to libraries in this region, particularly in institutions who are already publishing with us, and others with biology specialties who would benefit from access to our high-quality journal content. New Knowledge Information will be our sole representatives in Thailand for all journal sales, including our Read & Publish initiative. They will be our dedicated point of contact for librarians and resource coordinators.”

About New Knowledge Information Co., Ltd.

New Knowledge Information Co., Ltd. is a leading information service provider in Thailand, offering academic resources and research solutions to universities, research institutes, and libraries. We partner with global publishers to deliver high-quality eBooks, eJournals, academic databases, and support transformative agreements. With a focus of enhancing research and education, we are committed to empowering Thai researchers and institutions with greater access to global knowledge and promoting research visibility on an international level.

About The Company of Biologists

The Company of Biologists is a not-for-profit publishing organisation dedicated to supporting and inspiring the biological community. We partner with libraries and library consortia to enable biologists worldwide to access our leading peer-reviewed transformative journals – Development, Journal of Cell Science and Journal of Experimental Biology – and our fully OA journals – Disease Models & Mechanisms and Biology Open. 2025 marks the [100-year anniversary](#) of The Company of Biologists. We have celebrated this important milestone with a community conference and will be organising other activities throughout the year.

We also have a long-standing and ongoing commitment to OA. Our cost-neutral Read & Publish initiative enables corresponding authors at participating institutions to publish an uncapped number of OA research articles in our transformative journals and our two fully OA journals – without paying an APC. We were the first not-for-profit publisher to commit to the transformative journal approach and we are working towards a greater percentage of OA content year on year. Over [1,000 institutions in 54 countries](#) are now participating in our cost-neutral [Read & Publish OA initiative](#). We also have Read & Publish agreements with [many library consortia](#).
